## 11:00 – 11:15 | Welcome & Introduction to the RECENTRE Project

*How the RECENTRE project supports human-centred innovation and Industry 5.0 transition in Alpine manufacturing.*

**Marco Galanti** – t2i – technology transfer and innovation – Italy

Head of Innovation department at t2i – Technology Transfer and Innovation, and Project Manager of RECENTRE, leads projects focused on digitalization and sustainability, with particular attention to the adoption of enabling technologies and Industry 4.0 and 5.0.

---

## 11:15 – 11:30 | Young People and Technology for the Future of Enterprises

*New models for involving young professionals in reshaping skills and boosting SME competitiveness through technology.*

**Manuel Baseggio** – Upskill 4.0, spinoff of Ca' Foscari University of Venice – Italy

Innovation designer at Upskill 4.0, a university spinoff focused on bridging the gap between education and advanced manufacturing through innovative learning experiences.

---

## 11:30 – 11:45 | Bridging the Skills Gap in the Age of AI and Rapid Change

*How to prepare workers to actively participate in transitions, not just adapt to them.*

**Ugo Bot** – Future of Work Lab – Estonia

Estonian entrepreneur, co-founder of Future of Work Lab, a company focused on business

consulting and technological innovation. He is passionate about shaping the future of work through collaboration and cutting-edge solutions.

---

## **11:45 – 12:00 | Human Skills for Digital Industry: Making Machines Work for People**

**Ulf Oberbichler** – Alphagate - Austria

CEO and founder of Alphagate, a specialized provider of industrial Human-Machine Interfaces (HMI). He founded Alphagate over 25 years ago with a clear mission: to put user experience at the center of machine control.

Alphagate combines UX methodology, software development, and industrial design into holistic control and visualization solutions that align functionality with usability. The company delivers modern, future-proof HMI systems for clients in the machinery, semiconductor, pharmaceutical, and packaging industries—always with a focus on the human at the machine.

---

## **12:00 – 12:20 | Open Q&A**

Interactive discussion with experts. Participants are encouraged to ask questions and explore opportunities and challenges related to skills development within their current roles.

---

## **12:20 – 12:30 | Conclusion**

Presentation of the most important takeaways will be followed by an overview of the upcoming steps in the RECENTRE project and details about the next webinar.
